

# Thumb Pruner

## Instructions:

1. Cover the forefinger (or index finger) of your dominant hand with a finger guard.
2. Carefully place the thumb blade over the thumb of the same hand.
3. Grasp the stem, stalk or branchlet you wish to prune between your covered thumb and covered forefinger.
4. With your covered forefinger serving as a brace for support, press the thumb blade through the stem, stalk or branchlet to prune.

**Note:** To avoid cuts to your fingers, discard damaged or weakened finger guards and use a new one.

**#68389 - Men**

**#68395 - Women**

Includes 1 thumb blade and 5 finger guards
