

Perfect Start™ Natural Potting Soil **100% All-Natural Product**

- Allows plants to grow successfully in flowerpots, window boxes, hanging baskets and other containers holding flowers, herbs or vegetables.
- Contains coir, which aids in water retention.
- Promotes strong and healthy root systems.
- Great for initial planting and transplanting.
- Can be mixed into poor soil to increase soil productivity.
- Ready-to-use.

Derived from coir, perlite, mealworm castings, earthworm castings and 100% organic compost.

Also contains non-plant food ingredients: natural trace minerals and humic acid.
