

SHRUBS ALIVE!™

4 - 3 - 4

for Acid-Loving Plants

Specially designed for Azaleas and Rhododendrons (as well as other shrubs) that need an acid soil environment to thrive. Formula contains specific ingredients, which help acidify the soil. Formula also contains mineral and trace elements that are necessary for superb plant growth. Made from plant and animal by-products, minerals and trace elements.

Recommended for:

Azalea	Pine	Laurel
Hydrangea	Evergreens	Dogwood
Fir	Pyracantha	Juniper
Heather	Rhododendron	Magnolia
Spruce	Viburnum	Crape Myrtle
Holly	White Cedar	

Directions:

Apply at 5 lbs. per 100 sq. ft. in late winter or early spring. Broadcast evenly under shrubs and incorporate (scratch into soil) into the top two inches of the soil. Be careful not to disturb roots. If roots are too shallow, water the fertilizer into the soil thoroughly.

For larger trees and shrubs broadcast under rain drip canopy of each individual tree or shrub at the above rate. Water the fertilizer into the soil thoroughly.

For newly planted shrubs, apply 1 cup per plant in the hole at planting time. Water into the soil thoroughly, then place shrub in hole.

All ingredients are derived from plant and animal by-products.

4-3-4

Guaranteed Analysis

Total Nitrogen (N)	4%
Available Phosphate (P_2O_5)	3%
Soluble Potash (K_2O)	4%

Net Weight 5 lbs.
