

## U-Shaped Pins

Many gardeners use soil or rocks to hold down row covers and weed barrier mats, but our pins are easier to use and less messy. This heavy non-galvanized wire holds better than plastic or galvanized pins do; as they rust, they “bond” to the soil. You’ll re-use them for years and years

These 2” x 6” corrugated steel pins can be used for anchoring our Woven Weed Barriers and Floating Row Covers.

Package of 25
