

Watergarden & Pond Beneficial Bacteria Tablets

Easy-to-use dissolvable tablets keep watergardens and ponds clean, clear and healthy by breaking down organic waste.

This all-natural formulation contains beneficial bacteria that are ideal for use in watergardens and ponds, including koi ponds.

- Dissolvable formulation provides a "no-mess" approach to pond maintenance
- Tablets sink and dissolve over a 4-8 hr. time frame
- Leaves behind no particles or ingredients that cause murky water or clogged filters
- Reduces toxic nutrients such as ammonia and nitrite
- Reduces problem-causing nutrients such as nitrate and phosphate
- Reduces muck (bottom-sludge)
- Reduces murky water
- Reduces odors

Application Rate

1 tablet applied every 1-2 weeks treats up to 1000 gallons of water.

Storage and Handling

Store in a dry, cool location. Do not freeze. If exposed to eyes or skin, flush thoroughly with water.

For use in watergardens and ponds, including koi ponds. Safe for use around fish, birds, wildlife, plants, livestock and pets.

Ingredients

All-natural beneficial bacteria in compressed, salt-based powder.
