

Watergarden & Pond Phosphate Binder

This all-natural formulation provides a non-chemical alternative for binding problem-causing phosphate in watergardens and ponds.

- Buffers pH
- Formulated for year-round use
- Enhances overall water clarity
- Aids in reducing toxic ammonia
- Binds problem-causing phosphate
- Provides approximately 70 beneficial trace minerals
- Provides minor flocculation (settling) of mud and clay particles

Application Rate

2 ounces (4 Tbsp.) applied every 1-2 weeks treats up to 1000 gallons of water.

Storage and Handling

Store in a dry, cool location. Do not freeze. If exposed to eyes or skin, flush thoroughly with water.

For use in watergardens and ponds, including koi ponds. Can be used around fish, birds, wildlife, plants, livestock and pets. 100% All natural. Derived from sea plant material.

Contains seaweed derived calcium and magnesium oxide.
