

Vegetable Food

All-Natural Fertilizer (4-5-4)

Directions

Sowing Seeds:

- If using the broadcast method, broadcast at a rate of 1 lb. per 33 sq. ft. and till into the seed bed three weeks before sowing seed. Note: If you apply Gurney's Vegetable Food when you sow seed, the germination rate may decrease.
- If using the side-dress method, apply Gurney's Vegetable Food in a shallow trench next to the seed row at a rate of 1 cup per 25 ft. of row. This is the most economical method of application.

New plantings:

- For individual plants, apply 2 Tbsp. per plant when transplanting.

Existing plantings:

- When the plants are beginning to flower, apply a second feeding of 1/2 to 1 cup per 25 ft. row.

Guaranteed Analysis

Total Nitrogen (N)	4%
0.02% Nitrate Nitrogen	
0.03% Ammoniacal Nitrogen	
3.95% Water-Insoluble Nitrogen	
Available Phosphate (P ₂ O ₅)	5%
Soluble Potash (K ₂ O)	4%

Derived from wheat middlings, meat and bone meal, alfalfa meal, steamed bone meal, soybean meal, blood meal, potassium sulfate, fish meal and kelp meal.

Also contains non-plant food ingredients: humic acid, natural trace minerals and dried molasses.

Information regarding the contents and levels of metals in this product is available online at <http://agr.wa.gov>.

#78311

Net weight: 2 lbs.

(Approx. 7 cups, enough to feed seven 25 ft. rows.)
