

Vegetables Alive

100% Organic Fertilizer

Dramatically increases yields of lettuce, peas, broccoli, cabbage, beans, cucumbers and more. Just one delicious, fresh from the garden taste of peas or lettuce, and you will be glad you used Vegetable Alive.

Directions for Use:

- 1. Broadcast over the soil at the rate of one pound per 33-sq. ft., and till into seedbed about three weeks before sowing seed. Note: If you apply Vegetables Alive when you sow seed, the germination rate may decrease.**
- 2. Apply as a side dressing in a shallow trench next to the row, at the rate of one cup per 25 ft. Of row. This is the most economical method of application. Apply two tablespoons per plant for individual transplants. For optimum results, apply a second feeding, of 1/2 to 1 cup per 25ft. Of row, at the time the plant is beginning to flower.**

All ingredients are derived from plant and animal by products.

Minimum Guaranteed Analysis 8349—3 lbs.

Total Nitrogen(N)...4% 8350—10 lbs.

Available Phosphate(P2O5)...3% 8351—25 lbs.

Souble Potash(K2O)...1%
