OVER \$130.00 add \$19.99

Mail-order and online retailers are now required to collect applicable sales tax from all customers, **based on their delivery address**. We've printed the catalog recipient's estimated tax rate on the back of this catalog in a pink box. If your order is shipping to a different address, please be sure to add the correct amount for your delivery zip code. If you qualify for tax exempt status, include a copy of your certificate with your order.

GENERAL INFORMATION

Dutch Gardens bulbs and plants are top-size and top-quality. We select only cream of the crop bulbs and plants from leading growers here in the U.S. and Holland.

WHEN TO ORDER

We urge you to make your selections as soon as possible. Many of the special varieties we've added to this year's catalog are available only in limited quantities. We'll do our best to fill every order but there will be times when additional bulbs or plants won't be available until another season. In that case we may substitute another variety for equal or greater value..

SUBSTITUTION SERVICE

If there is a crop failure or an unexpected demand for an item and we run out, we may select a substitute of equal or greater value if we have something similar.

WHOLESALE POLICY

Our catalog is not for wholesale use. Our guarantee does not cover products that are intended for resale. Contact us directly for large quantity pricing and terms.

CATALOG ILLUSTRATIONS

The pictures in this catalog are of mature plants in the best condition. With proper care, the young plants you buy can and should resemble catalog illustrations when they reach maturity.

- Always Top Size Bulbs
- Always Top Quality
- Always Top Value

PLEASE NOTE

Prices in this catalog are good thru May 31, 2022. We try hard to make sure the catalogs are accurate, but we reserve the right to amend any errors in price, quantity or specifications that occur during printing. This catalog supersedes all previous editions.

SHIPPING METHODS

We may ship your order in any one of a number of different ways depending on the type of product, time of year or the quantity ordered. Be sure to give us your complete house address and/or box number so your order is sure to get to you.

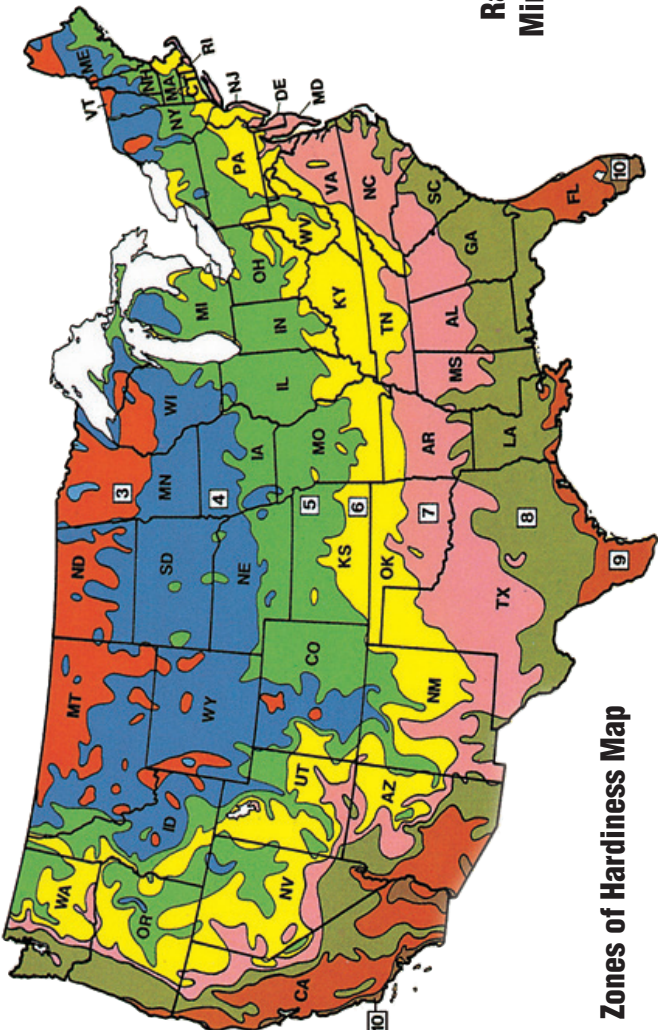

DUTCH GARDENS PLANTING GUIDE

Get maximum enjoyment from your garden with our exclusive Spring Planting Guide. This valuable reference explains how to grow and care for Dutch Gardens bulbs and plants. You will receive a FREE copy with your order.

Zones of Hardiness

Zone designations are approximate. Many plants can be grown in one zone "colder" than rated by placing in a protected location or by proper winter care (such as mulching). Do not be discouraged from attempting to grow a "Zone 5" plant in "Zone 4." Just try to think of a spot in your landscape that is a little more protected.

Please note that the USDA zone map is based on minimum winter temperatures. It does not consider the many other factors that contribute to hardiness, including maximum summer temperature, humidity, rainfall, wind and soil conditions.

Range of Average Annual
Minimum Temperatures (°F)
for Each Zone

- Zone 3 -40 to -30 °F
- Zone 4 -30 to -20 °F
- Zone 5 -20 to -10 °F
- Zone 6 -10 to 0 °F
- Zone 7 0 to 10 °F
- Zone 8 10 to 20 °F
- Zone 9 20 to 30 °F
- Zone 10 30 to 40 °F
