GREAT DEAL!

Pep-Start Pills

Safe and easy-to-use pep pills for plants! Fertilize with Pep-Start pills to get your plants off to a good start. They will not burn sensitive feeder roots and will not wash out of the ground. Feeds for 2 years. Easy to use — just move out to the ends of the branches circumference of the plant at 18" intervals. For shade and fruit trees, shrubs, roses and delicate bedding plants. Use 3 pills for trees and rose bushes; 1-2 pills for small plants (bedding plants, grapes and berries). Instructions included.

- 84108 25 for \$6.99
- 50 for \$12.99
- 100 for \$24.99
- 200 for \$47.99
- 500 for \$114.99

Mushrooms

Shiitake

Lion's Mane

Mushroom Logs

All the hard work is done! Simply place your pre-inoculated log in full shade and in a location where it can get rained or snowed on. Then harvest delicious mushrooms for years to come! Leave them outside year-round; they simply go dormant in the winter. The logs are perennial, producing for 4-6 years or longer. The only care required is watering. 12" pre-inoculated log comes with instructions.

84123 Shiitake 84124 Lion's Mane
 Prices for all of one kind.
\$39.99 each 2/\$69.99

High Yielding Oyster

Mushroom Kits

Grow your own delicious mushrooms indoors! Easy care kits yield loads of tasty mushrooms. Our kit will yield multiple times. White Oyster is the best producer with a mild flavor similar to fresh button mushrooms. Black Oyster has a bold flavor—add a little sun to increase the flavor and color. Easy to follow care instructions included. Great gift idea!

Black Oyster

White Oyster

84222 Black Oyster **\$34.99 each**
 84121 White Oyster **\$34.99 each**

GENERAL INFORMATION

WHEN CAN YOU EXPECT DELIVERY?

Gardening Supplies & Merchandise are shipped all year long. Seeds are shipped February through mid-November. In general, Perennials and Bulbs are shipped in September and Shrubs and Trees in October. However, we are often able to ship sooner (during the summer months) based on the availability of the plants and will do so whenever possible. **Orders are not shipped within a given time frame of receipt of order, but rather based on many factors including proper planting time.**

SUBSTITUTION SERVICE

If there is a crop failure or an unexpected demand for an item and we run out, we may select a substitute of equal or greater value if we have something similar.

WHOLESALE POLICY

Our catalog is not for wholesale use. Our guarantee does not cover products that are intended for resale. Contact us directly for large quantity pricing and terms.

CATALOG ILLUSTRATIONS

The pictures in this catalog are of mature plants in the best condition. With proper care, the young plants you buy can and should resemble catalog illustrations when they reach maturity.

PLEASE NOTE

Prices in this catalog are good thru October 31, 2022. We try hard to make sure the catalogs are accurate, but we reserve the right to amend any errors in price, quantity or specifications that occur during printing. This catalog supersedes all previous editions.

SHIPPING METHODS

We may ship your order in any one of a number of different ways depending on the type of product, time of year or the quantity ordered. Be sure to give us your complete house address and/or box number so your order is sure to get to you.

WHEN WILL MY ORDER ARRIVE?

Garden Supplies will be shipped promptly. Shipping schedule for nursery stock items such as trees, shrubs, bulbs and other plants depends on availability and when we think is safe and proper for your area. For any questions regarding delivery, contact us at 1-309-662-7761 or email us at customercare@eburgess.com

"HOW TO GROW" INSTRUCTION

Everything you buy from Burgess comes to you individually marked, tagged or labeled. Seed planting instructions are printed on every packet. We enclose a booklet or sheet with every live plant, tree or shrub telling you how to plant and take care of the item.

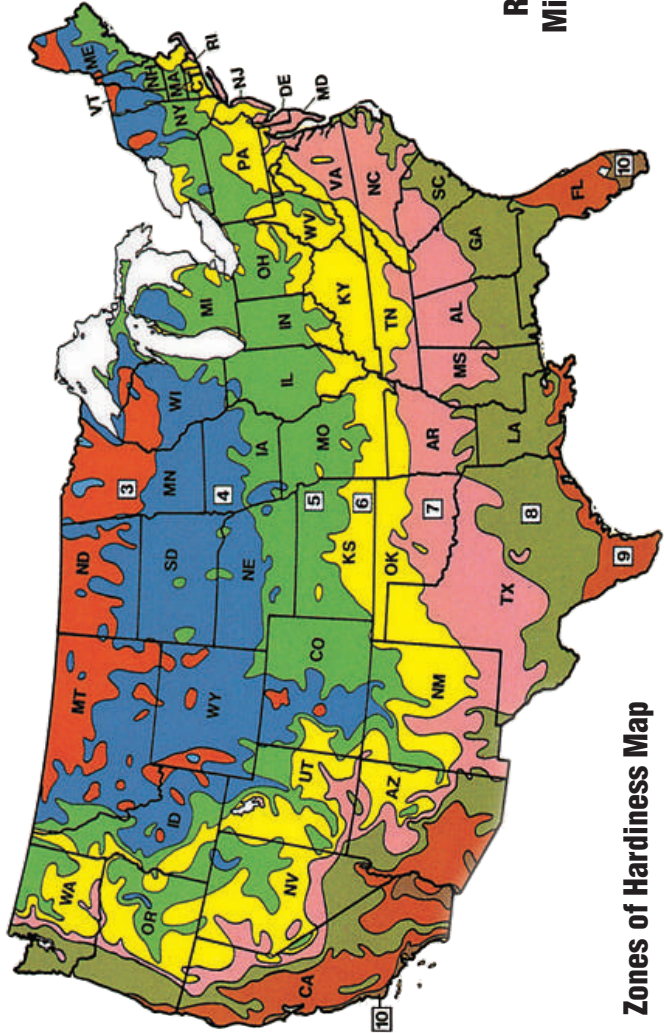

Zones of Hardiness

Zone designations are approximate. Many plants can be grown in one zone "colder" than rated by placing in a protected location or by proper winter care (such as mulching). Do not be discouraged from attempting to grow a "Zone 5" plant in "Zone 4." Just try to think of a spot in your landscape that is a little more protected.

Please note that the USDA zone map is based on minimum winter temperatures. It does not consider the many other factors that contribute to hardiness, including maximum summer temperature, humidity, rainfall, wind and soil conditions.

- Zone 3 -40 to -30 °F
- Zone 4 -30 to -20 °F
- Zone 5 -20 to -10 °F
- Zone 6 -10 to 0 °F
- Zone 7 0 to 10 °F
- Zone 8 10 to 20 °F
- Zone 9 20 to 30 °F
- Zone 10 30 to 40 °F

Range of Average Annual Minimum Temperatures (°F) for Each Zone
